

1 **ON THE WAY PAST...**

Mark 5:21-34

2 

First, what happened:

Woman who was sick for a long time came to Jesus and was healed

How? What was the catalyst? Her faith in Jesus.

Her faith prompted her to come – she knew who He was and that He was able. (v34; Heb 11:6)

Healed from what?

The presenting disease (v25-29)

The underlying disease (v34)

Made well or made whole – in NT this phrase is used for saving from sin.

3 

The physical healing helps to illustrate the spiritual healing

Faith in Christ doesn't always lead to physical healing,  
but it always leads to spiritual healing

4  **We can't miss how this played out...**

She was not the "main event"

Jesus was on His way past to a little girl at death's door (v23)

This was unconventional

(v27-28)

5  **So what?**

- Coming by faith to Jesus results in healing.
- You are not an inconvenience or afterthought to God.
- God is not limited to our box. He is not confined to work only in the ways, places or times that we imagine.

6  **So, what else?**

- Be aware of ministry opportunities in the interruptions
  - In our daily schedule
  - Also in a year that we can't wait to end

7 

When we have our eyes fixed on a goal, we may become oblivious to what the Lord has for us on the journey, right now.
